## Feedback

I really enjoyed the panel discussion! The questions were incredibly thought-provoking and the answers were insightful and interesting. It was nice to hear all the opinions about genres and topics from everyone. Thank you to all the teachers, library committee and of course the panelists for such an enjoyable event :)

Thank you to all the panelists who volunteered and entertained us by being extremely energetic and informative. Lit fest this year was totally unforgettable!

Listening to the panelists was awesome and it seemed like they put in a lot of effort into it. I think it would have taken courage to be a panelist so that's there! They made it mentally stimulating and fun at the same time. The questions were also very interesting and made me think about the answers as well. The answers the panelists gave were extremely well thought-through! I also liked the fact that we got the Mentimeters so it was interactive as well. :)

The panel discussion was so interesting and I loved every minute of it. The poll in the beginning which helped us get to know the panelists better gave some really great recommendations and the quiz in the middle was extremely fun. The questions asked in the rapid fire were fascinating and listening to the panelists' answers was even more fascinating. I LOVED the session!!
