# 4 year summary 2015 - 2018

## Message from Regional Director for South Asia Cambridge International Examinations

*“International curriculum is gaining prominence in India and Cambridge International is the most popular provider, with over 420 schools offering Cambridge programmes. Indian parents and students are responding positively to the choice of subjects that Cambridge International offers, and our approaches to teaching and learning. Unique subjects like Cambridge Global Perspectives, which nurtures critical thinking, research and collaboration skills through the study of global issues, are becoming more popular. I would like to take this opportunity to congratulate all students on their results thank all of their teachers and parents for their relentless support. **In India, over 300 schools had over 75,000 entries for exams this year, thus recording 10% increase from 2017.**” - Ruchira Ghosh*
